

# NEXA-EVENT & TRAVEL DESIGNERS

## OUR PRO

We organise any type of event with beauty and quality at the core

## SIGNATURE STYLE

Elegance with a good dose of creativity

## TOP TIP

Passion and technicality always go hand in hand

## ETHOS

Any event needs care but weddings need special care

## TELL US A BIT ABOUT YOUR COMPANY?

I established Nexa in 1990 in the beautiful city of Venice after years of experience spent between London, New York, Paris and Monte Carlo. I began organizing international academic conferences in the field of art economics. Nexa immediately became the reference point in the city for events dedicated to art and culture in the most iconic and prestigious venues in Venice.

The firm soon grew, and the conferences gave way to major institutional and corporate events. We have collaborated with various luxury and fashion brands like Louis Vuitton, Bulgari, Fendi, Dior, Prada, Valentino, Estee Lauder, and Chanel. Word spread fast and about 10 years ago, we were asked to branch out to include weddings so we began to work in the wedding industry.

## WHERE ARE YOU BASED?

In Venice, in the historic centre of the city. Our office is located off Campo San Luca, which is considered the heart of the city centre.

## DO YOU HAVE A SIGNATURE STYLE?

We love to bring elegance and essentiality to our events with a good dose of creativity. We believe in beauty as an expression of harmony and this inspires us in every aspect. Venice is in itself the essence of beauty and offers a great number of possibilities and venues for hosting our events. The network of relationships that we have consolidated, allows us to offer our clients and their guests a wide range of options and a unique experience that will remain in their hearts.

## WHAT INSPIRES YOUR WORK?

Our passion that offers an experience to remember, the certainty of building a relationship that lasts over time and leads to other relationships (word of mouth has always been the underlying force of our work).

## HOW ARE WEDDINGS AND EVENTS DIFFERENT IN THE ERA OF SOCIAL DISTANCING?

Thanks to our extensive knowledge of the city, its institutions and different locations and venues, as well as our solid business relations with local vendors, we feel confident in facing the post-COVID period. They are in full compliance with all the safety

measures to be taken and are ready with an effective and targeted response to any situation that may arise.

## TELL US ABOUT AN IMPORTANT EVENT YOU PLANNED?

There are two events that come to mind:  
-The Tiepolo Ball organized with Dior last year and Francesca and Federico's wedding organized last July at the Hotel Belmond Cipriani. These are two events that we loved for their extreme elegance. We were able to give our best and prove once again that the "technical" and the "emotional" aspects go hand in hand with excellent results.

## WHAT IS NEXT FOR NEXA EVENT & TRAVEL DESIGNERS?

In September we will be one of the official sponsors of The Venice Glass Week, for which we are organizing tours and experiences in the glassmaking workshops and furnaces, both in Venice and on the island of Murano, famous throughout the world for artistic glassmaking. We are also launching a project centred on the Italian wine roads - Nexa's Wineroads - a series of lifestyle experiences that start in Venice and which introduce our guests to the land around the city and the treasures it contains. We are poised and ready to meet the challenges of all the postponed events including Homo Faber, the celebration of the international artisan that will take place at the Giorgio Cini Foundation in Venice and all those for which we have submitted projects and designs.
